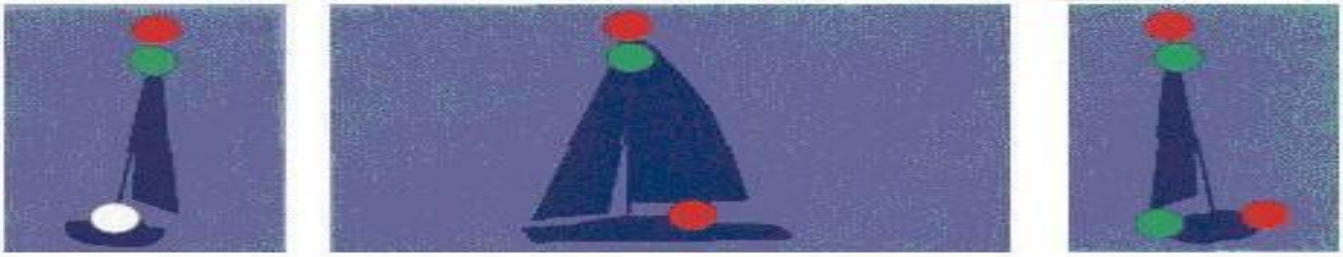
VESSELS UNDER SAIL (RULE 25)

Stern Port side Bow

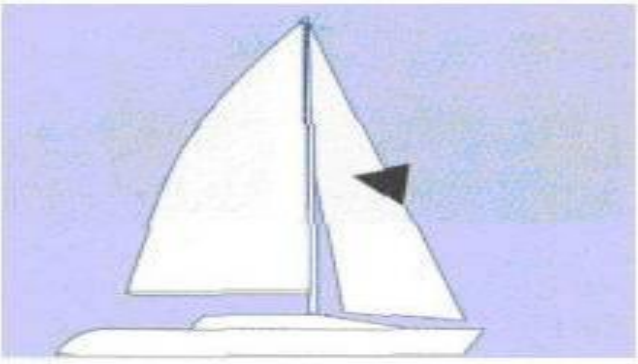
Sidelights & sternlight only – no masthead light

Under 20m may have combined masthead lantern (red/green/white) with no other lights.



(Rare) A yacht may carry an all-round red over green, plus side and stern lights

A sailing yacht when motor sailing shows the same lights as a power vessel. So engine on, masthead lights on.



By day: Sailing vessels using their engines for propulsion but with sails hoisted should show forward a cone, point down.
